STANDARD METAL CART

Medium sized cart is the perfect size for any retailer. Narrow enough to fit most aisles. Double top wire increases basket strength. Fixed lower tray limits contact points and wear and tear on the carts when nesting.

Double-Rim Wire Construction eliminates sharp edges at all touch-points around the basket while adding rigidity and strength.

Welded Lower Tray means less maintenance, less rusting and quieter cart operation in store.

Forever Secure gate design ensures the gate assembly that holds the child can never fall off, or out of the cart.

Gravity-Drop Seat Frame ensures a smooth and effortless closing of the child seat when the gate closes, significantly reducing the chances of seat belts and components getting tangled in the operation.
