

# KNM600

## SMALL PLASTIC SCANNER CART

Plastic cart reduces overall weight and its shallow basket makes items easier to reach and unload. Colored basket and customizable side panels support store branding.

In addition to limiting damage to store equipment and fixtures, **Plastic Baskets** lessen liability in parking lots as they are less likely to scratch or damage vehicles.

**Gravity-Drop Seat Frame** ensures a smooth and effortless closing of the child seat when the gate closes, significantly reducing the chances of seat belts and components getting tangled in the operation.

**Forever Secure** gate design ensures the gate assembly that holds the child can never fall off, or out of the cart.

**Welded Lower Tray** means less maintenance, less rusting and quieter cart operation in store.
