DEEP SCANNER METAL CART

Deep Scanner basket is perfect for large retailers looking to increase shopping capacity and shopper experience. Heavy-duty frame allows for increased weight and storage.

Double-Rim Wire Construction eliminates sharp edges at all touchpoints around the basket while adding rigidity and strength.

Welded Lower Tray means less maintenance, less rusting and quieter cart operation in store.

Forever Secure gate design ensures the gate assembly that holds the child can never fall off, or out of the cart.

Gravity-Drop Seat Frame ensures a smooth and effortless closing of the child seat when the gate closes, significantly reducing the chances of seat belts and components getting tangled in the operation.
