LARGE METAL SCANNER CART

The Large Metal Scanner Cart features a double-wide child seat that safely holds two children, perfect for warehouse-style stores. Our largest capacity cart with heavy-duty steel chassis allows for the easy transport of bulk items.

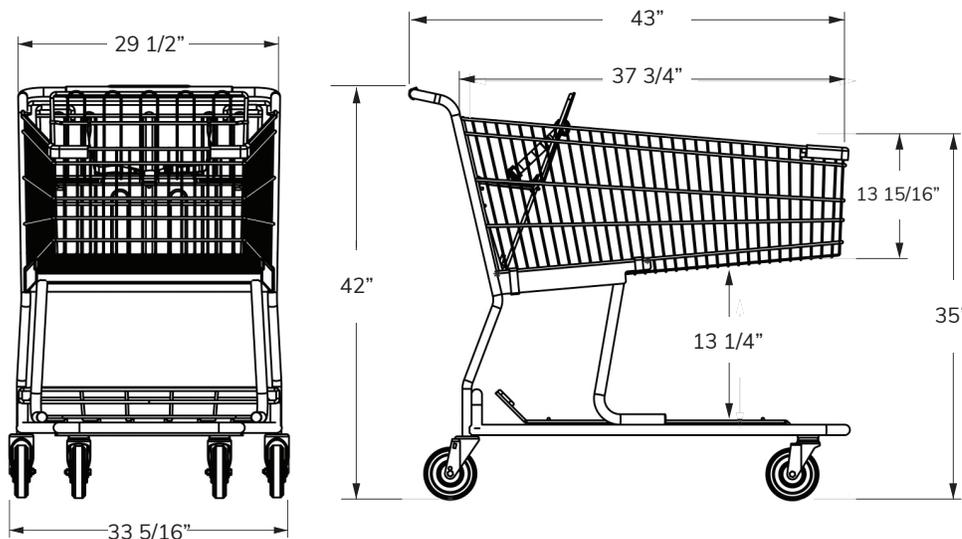

Double-Rim Wire Construction eliminates sharp edges at all touch-points around the basket while adding rigidity and strength.

Welded Lower Tray means less maintenance, less rusting and quieter cart operation in store.

Forever Secure gate design ensures the gate assembly that holds the child can never fall off, or out of the cart.

Gravity-Drop Seat Frame ensures a smooth and effortless closing of the child seat when the gate closes, significantly reducing chances of seat belts and components getting tangled in the operation.
